### WHY SHOULD YOU WEAR A NEMO CORSET?

ASK THE WOMAN WHO WEARS ONE.

**N**EMO workmen are the most skilled that money can command. Nemo designers stand at the top of their profession. Nemo materials are the best obtainable. The natural result is a corset so far ahead of ordinary makes that comparison is out of the question. The many exclusive features of Nemos put them in a class by themselves. Self-reducing and figure-building appliances are associated with none but Nemo Corsets. Stout and slender women, as well as those of average figure, have their corset needs supplied perfectly. Our experts will assist you in selecting the right Nemo, and will fit it correctly to your figure.

### Not only are NEMO Styles Absolutely Correct, but Wearing Qualities are also Greater Than in Any Other Corset.

BECAUSE—every Nemo is made with the patented "Triple-Strip Re-enforcement," by means of which three strips of cloth (instead of one) resist the tendency of bones and steels to push through at top and bottom.

BECAUSE—every yard of material is thoroughly tested for strength by means of specially devised and accurate instruments.

BECAUSE—Nemos are made with the "double-bone

wires" (original with us), which are practically unbreakable, and with steels of the very highest quality obtainable.

BECAUSE—the scientific designing of all Nemos assures the smallest possible degree of strain upon the corset.

BECAUSE—every Nemo is subject to rigid examination by at least a dozen skilled inspectors (following each stage of manufacture), and any corset which shows the slightest flaw or defect is cast aside.
